

Horizon Furniture 2026 Catalogue

"A company is more than just the building, the facade, the marketing, the product. It is the people who represent the company, the communication within the company and the service we provide. This is what sets us apart from other suppliers. People buy from People." - *President Patrick Flanagan*

Horizon Furniture™ is a leading manufacturer of Ergonomic Office Seating and distributor of Ergonomic Computer Accessories based in Kitchener, Ontario. Established in July 1988, this local manufacturer and distributor has been serving Canada for over 30 years. From its humble beginning, it has grown into the 42,000 sq. ft. facility that you see.

Horizon values the process and strives for a total experience for their clients. As a family owned business, the family values of the company are extended to their employees and to their customers, which is evidently the highest priority. This is what makes Horizon stand out from others; maintaining and developing relationships as their pinnacle of success.

Research and development is a keen area for Horizon Furniture™. They continue to develop new and interesting products based on customer feedback, ergonomic principles, and advances as well as industry design trends.

Horizon is a trusted name in office seating manufacturing thanks to their advocacy for environmentally friendly alternatives. This includes wood that is certified and sourced by the Forest Stewardship Council FSC, BioFoam™ which is sourced from seed-based renewable resources, and fabrics constructed from recycled materials, as well as recycling 95% of all waste produced by the facility. This is a testament to the values of Horizon and future generations.

NEW BIO-FOAM

Horizon has formed partnerships with reliable source suppliers who have spent many years on award winning research, development and experimentation in resilient foam for use in seating products. The result is a change in the composition of resilient foam (cushions) to create an innovative new foam product.

This new foam compound contains natural renewable resources in place of petrochemical based polyols and ultimately reduces greenhouse gas emissions. The new “Bio-renewable foam” is manufactured from natural seed-based oils such as soybean and others which are rapidly renewable and will not adversely affect the food chain. 15-20% of the end product is therefore Bio based.

Bio-renewable foam performs equally as well as traditional foam, is CFC free, has no odour emission, superior UV stability, stable consistency and density and the raw material is renewable and plentiful. As an added benefit, the energy consumption to manufacture foam from Bio based materials is significantly less than what is required for traditional petrochemical based processes.

Protecting the environment is important to the people at Horizon. Selecting products and making manufacturing process changes that support this ideal is vital to a better, cleaner future.

Bio-Foam is used wherever you see this logo.

14" width, 10.75" height

Fixed height chrome loop arm with soft urethane arm pad.

BLC \$119

**NOTE: ARMS ARE MEASURED FROM THE BOTTOM OF THE SEAT TO THE TOP OF THE ARM PAD
 WIDTH ADJUSTABLE LOWERS THE ARM BY 1/4"**

WHY SHOULD I CHOOSE HARD FLOOR CASTERS?

New office chairs are typically equipped with hard caster wheels intended to be used on carpeted floor. But what if the chair ends up on a hard surface such as hardwood, VCT, ceramic tile, concrete, etc? Rolling the hard caster wheels on hard flooring can scratch or permanently damage your expensive hardwood, linoleum or tile floors. An additional benefit is a reduction in noise level in the workplace.

Solution? Replace the existing hard caster wheels with polyurethane caster wheels. The slightly softer polyurethane material will help prevent the wheels from scratching the hard floor while allowing the wheels to roll smoothly and quietly.

Besides cosmetic, safety is another reason why polyurethane caster wheels should be used on hard flooring. Polyurethane provides better traction on hard floor thus reducing the chance of accidental slipping.

HARD SURFACE CASTER

Premium hard floor caster. Hooded. 2" dia.

HEALTHCARE AND INDUSTRIAL SEATING FROM HORIZON

The Shoptech Series from HORIZON is designed for the specific and varied needs within an industrial or health care setting including ESD (electrostatic dissipative), clean rooms and wipe down applications. With high quality components and products suited for virtually any application, HORIZON is your partner for ergonomic comfort and productivity. Shoptech seating has the solution for your medical lab, production floor, shipping office, dispatch centre and a variety of other environments.

ESD (Electrostatic Dissipating) Seating

ESD seating from HORIZON is designed and built to exacting standards and thoroughly tested at several stages of construction and assembly. This ensures operator safety as well as protection from the buildup and release of static electricity. Industry experts estimate the actual cost of electrostatic discharge damage to the electronics industry as running into the billions of dollars annually. Electrostatic discharge affects production yields, manufacturing costs, product quality, product reliability and ultimately, profitability. Look for the “ESD” symbol to identify ESD seating models.

ESD Electrostatic Dissipative

ESD seating is designed for use as part of an overall ESD control program in areas where control of static electricity is crucial. ESD seating products are engineered to control discharge of static electricity by “wicking” static away from the user, sensitive electronic components and volatile chemicals and materials. ESD environments typically include wrist straps, work surfaces, footwear and flooring designed and engineered to ground and eliminate static buildup.

24 Hour, Multi-Shift Task Chair

Horizon 24 hour, multi-shift chairs can handle continuous sitting, 24 hours a day, 7 days a week. Plus, they can handle weight capacities of up to 400 lbs. The multiple ergonomic adjustments allow incredible custom configuration, for complete and total comfort 24 hours a day. Great for control centres, hospitals and police stations. Look for the 24-Hour symbol to identify 24-hour seating models.

24 Hour, Multi-Shift

Seating designed for 24 hour or multi-shift use is specially constructed using heavy-duty components and materials in order to withstand intensive use. Applications include: dispatch, control rooms, security stations, police/fire/ambulance stations, etc. These chairs feature extra heavy duty multi-tilt mechanism, seat slider, heavy duty base and casters, injection molded foam cushions and vinyl protective edging on backrest cushion.

CLEAN ROOM SEATING

Shoptech seating from HORIZON offers many models and options designed to suit the various requirements of “Wipe Down” and “Clean Room” applications. Shoptech seating is designed to be used as part of an overall clean room program. Clean rooms are environments in which the air supply, materials, equipment as well as the way personnel dress and function are all regulated to control airborne particles. Air cleanliness is maintained at super clean levels that can be measured to meet specific standards. Look for the symbols below to identify the appropriate product for your needs. Contact your HORIZON representative for additional information.

Wipe Down

Molded polyurethane surfaces on these chairs and stools are easy to access and clean. For use in areas where seating is subject to regular and thorough cleanup of contaminants such as dust, dirt, particulate, liquid spills, etc. (areas where upholstered cushions are not acceptable/practical). Applications include healthcare, laboratories, pharmaceutical, food service, dry goods (food related) manufacturing, etc.

Clean Room Class 1000

Seating designed for this application is highly cleanable and minimizes environmental contamination (the release or harboring of dust and particles from cushioning materials, etc.). Class 1000 is a less intensive clean room classification. Applications include health care, test/lab facilities, film processing/manufacturing and clean manufacturing environments such as paint and finishing areas. Air is usually controlled and filtered in these environments. Worker uniforms would typically include lab coats, gloves and overshoes or a change of footwear.

Clean Room Class 100

Seating designed for this application is highly cleanable and meets a more intensive standard for environmental contamination. Cushions are polyurethane or vinyl upholstered with vinyl covered seat bottoms and integrated filters. Polished aluminum bases are standard. Applications include pharmaceutical, biomedical, health care, microelectronic, etc. Air quality is routinely monitored and controlled in these environments. Worker uniforms would include hair nets, gowns, face masks, foot coverings and gloves.

2700 STOOL SHOPTECH SERIES FROM HORIZON

- Extra wide, ergonomically designed seat and backrest
- Height adjustable gas lift action
- Three different control mechanisms
- Seat and backrest in hardwearing cushioned polyurethane

SPECIALTY KEYBOARD ARMS

Horizon Furniture is proud to present the TNT "Trackless" keyboard arm, and the Aria "Fixed" height keyboard arms. These low profile arms give users greater knee clearance under the worksurface. With soft touch knob dial til, and the ability to swivel 360°, these keyboard arms are perfect for tight spaces.

TNT00 Arm Mechanism

Direct Mount, No Track Required

- Arm length is 17.5"
- Lift n' lock™ "leverless" height adjustment
- 5.73" height adjustment range of -1.25" to -6.98" under desk surface
- Soft touch knob dial tilt for quick and easy adjustments +10° to -15°
- Separate height and tilt gauges
- Low profile arm mechanism gives greater knee clearance
- Light weight of 5.8 lbs
- Black finish
- 360° swivel mount

TNT00 **\$289**

ARI-12 Aria Arm Mechanism

Fixed Height Keyboard Arm

- Fixed height tray mount of 3.83" below track mounting surface
- 12.75" glide storage track
- Soft touch knob dial tilt for quick and easy adjustments +10° to -10°
- Tilt gauge on arm assembly
- Low profile arm mechanism gives greater knee clearance
- Black finish
- 360° swivel mount

** 11" track available by special order only. Use ARI-11 when ordering**

ARI-12 **\$149**

BUILD YOUR OWN KEYBOARD SYSTEM

STEP 1: Choose the arm that best suits your application

Legato "lever-free" Height Adjustment

- Lift n' lock™ "leverless" height adjustment
- 8.88" height adjustment range of 2.38" above and 6.5" below worksurface
- Innovative dial tilt for quick and easy angle adjustment of +10° to -20°
- Tilt and height indicator displays present keyboard position
- Cable management system
- Low profile arm and tray maximizes knee clearance
- 21" smooth glide storage track
- 360° swivel mount
- Standard in Black, White finish option
- Exceeds BIFMA performance standards, HFES compliant

LGT21 (7.5" neck - 21" track) **\$289**
LGT17 (7.5" neck - 17" track) **\$289**

Economy Articulating Arm Mechanism

- Soft-touch knob for simultaneous height and tilt adjustment
- Spring-assisted to help counterbalance keyboard and tray weight
- 6" height adjustment range of 1" above and 5" below work surface
- +15° to -15° tilt adjustment
- Low profile design
- 360° swivel
- 17" smooth glide storage track
- Load rating of 100 lbs
- Exceeds BIFMA performance standards

KLT-17 (5.5" neck) **\$213**

Sit to Stand Articulating Arm

- Lift n' lock™ "leverless" height adjustment
- 14.3" of height adjustment range of 8.5" above and 5.8" below workstation
- Dial tilt angle adjustment for +10° to -15° tilt
- Tilt and height indicator
- 21.75" Smooth glide track
- 360° swivel and
- Load rating of 100 lbs
- Ideal for sit/stand applications
- Exceeds BIFMA performance standards

OST-22 (7.5" neck - 21" track) **\$409**

CONCERTO™

The next generation

The Concerto Series is a stunning take on an already brilliant innovation. One part workhorse, one part museum piece, this new monitor arm continues in the fine tradition of its predecessor and builds on a sterling reputation.

MONITOR ARM SUPPORTS

Concerto includes the following standard features for different configurations;

- VESA mounting plate contains 75 mm and 100 mm mounting configuration
- VESA plate head is fully adjustable with 180° of tilt, 180° of swivel and 360° of rotation for portrait to landscape viewing
- Counterbalance spring mechanism does not contain gas cylinders
- Cable management provided
- Arm components manufactured from 100% recyclable die cast aluminum material
- 12" arm height adjustment on the stainless steel pole
- Clamp and grommet mount
- Monitor arms available in Silver (standard colour)
- White, black or polished finish available by special order
- Holds 20 lbs. per monitor

BIFMA
TESTED

All models include
**QUICK MOUNT
MONITOR CONNECTOR**

FSP-05

- Direct mount
- Holds 20 lbs.

FSP-05 **\$250**

FSP-10

- Single segment with a 9½" reach from centre of pole to front of VESA plate
- Display viewing; 180° of tilt, 180° of swivel and 360° of rotation
- Holds 20 lbs.

FSP-10 **\$320**

FSP-10HA

- "HA" adds a fingertip height adjustable monitor arm which is counterbalanced
- Monitor height adjustment range from 3" to 12" from the worksurface
- Holds 20 lbs.

FSP-10HA **\$419**

FSP-15

- Dual segment with a 9½" reach from centre of pole to front of VESA plate
- Display viewing; 180° of tilt, 180° of swivel and 360° of rotation
- Holds 20 lbs.

FSP-15 **\$399**

FSP-15HA

- 12" reach
- "HA" adds a fingertip height adjustable monitor arm which is counterbalanced
- Monitor height adjustment range from 3" to 12" from the worksurface
- Holds 20 lbs.

FSP-15HA **\$479**

FSP-20

- Dual screen, two segments with a 19" extension from centre of pole to front of VESA plate
- Display viewing; 180° of tilt, 180° of swivel and 360° of rotation
- Max of 39" width per monitor
- Holds 20 lbs. per monitor

FSP-20 **\$699**

FSP-20HA

- "HA" adds a fingertip height adjustable monitor arm which is counterbalanced
- Monitor height adjustment range from 3" to 12" from the worksurface
- Max of 39" width per monitor
- Holds 20 lbs. per monitor

FSP-20HA **\$875**

MONITOR ARM SUPPORTS

Concerto includes the following standard features for different configurations;

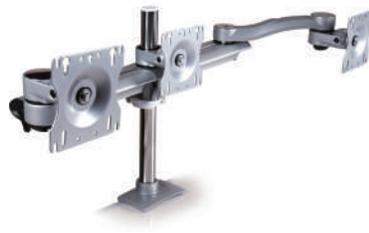

- VESA mounting plate contains 75 mm and 100 mm mounting configuration
- VESA plate head is fully adjustable with 180° of tilt, 180° of swivel and 360° of rotation for portrait to landscape viewing
- Cable management on arm swivel joints and pole support ring
- Arm components manufactured from 100% recyclable die cast aluminum material
- 24" single or dual beam mounts
- 360° of beam swivel around pole
- Clamp and grommet mount included
- Monitor arms available in Silver (standard colour)

FSB-25

- Dual screen beam mount
- 16" pole height adjustment
- Max of 21" width per monitor
- Available in Black or Silver

FSB-45 **\$1,049**

FSB-80

- Four beams, two rows with four VESA plates each
- Four single extensions at the ends can be swung out for other users
- Four direct mounts
- 30" pole and 48" beam
- Max of 16.75" width per monitor
- Available in Silver only

FSB-80 **\$1,859**

ACTIVERGO® SERIES

Monitor Arms

ActivErgo® offers economical alternatives for monitor supports. Quality, function, adjustability and value are the basis of this line of ergonomic accessories.

Standard features include:

- VESA standard mounts for monitors (75mm and 100mm)
- Built to meet and exceed BIFMA standards
- Clamp or grommet mounting options (most models)
- 5 year warranty

ACTIVERGO® SERIES MONITOR ARMS

Monitor Arms

- Gas spring arm technology
- Holds monitors up to 30" and 4.4-19.8lbs/2-9kg., (per arm for 27HA)
- 360° swivel with a 120° and 180° lock-out options
- 180° monitor rotation for portrait or landscape viewing
- VESA mount plate for 75mm and 100mm
- Clamp or grommet mount (both included)
- Cable management
- Available in Black & White

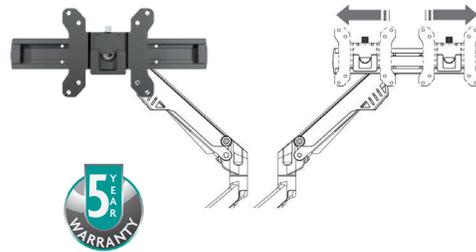

AEB-17HA Single arm **\$199**
AEB-27HA Dual arm **\$349**

Mini Slider Adapter

- Accessory for AEB-27HA dual arm for monitors 17-24"
- 3 connection points for a full range of motion
- Total adjustment range of 30 cm/11.8"
- Slide monitors across sliders till they are together
- Easy installation onto dual arm
- Sold individually

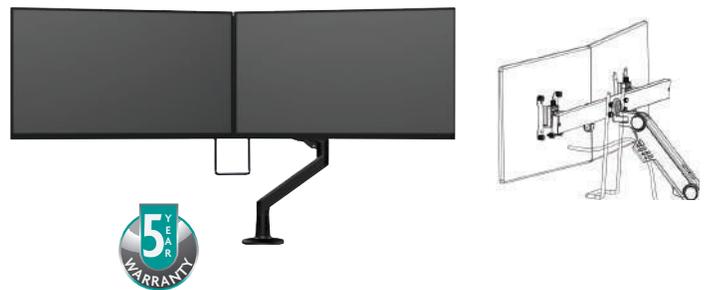

AE-MS **\$49**

Dual Arm with Crossbar

- Gas spring arm technology
- Holds monitors up to 27" and 13.2 lbs /6kg. per arm
- 360° swivel with a 180° lock-out option
- Horizontal movement: 5° levelling adjustment
- Handle for easy positioning of monitors
- Clamp or grommet mount (both included)
- Cable management

AEB-28CB **\$329**

Monitor Arms

- Steel structure, powder coated black finish
- VESA mount plate for 75mm and 100mm
- Holds monitors 13"- 27" and 8kg /17.6 lbs (per arm for AEB-20)
- Height, reach, angle, tilt and portrait/landscape adjustable
- Clamp or grommet mount (both included)
- Cable management clips

AEB-15 Single arm **\$95**
AEB-20 Dual arm **\$125**

ACTIVERGO® SERIES MONITOR ARMS

Monitor Arms (Replacements for AES)

- Lightweight aluminum construction
- Keyhole pattern for easy VESA plate installation
- Pole height of 15.7" with a reach of 17.75"
- Capacity of 8 kg/17.6 lbs (per arm for AEG-20)
- Fits most monitors 17"-32"
- Tilt +30° to -30°, swivel +90° to -90°, rotation +180° to -180°
- VESA mount plate for 75mm and 100mm
- Clamp or grommet mount (both included)
- Built-in cable management clips
- Metallic Grey

AEG-15	Single arm	\$137
AEG-20	Dual arm	\$188

Height Adjustable Monitor Arms

- Built-in spring tension adjusts for various weight loads
- Weight capacity of 2.7kg/6lbs - 9 kg/19.8 lbs (per arm for AEG-24HA)
- Fits most screen sizes 17 - 32"
- Arm offers a 180° lock-out option
- Monitor can rotate 360° and swivel +/-90°
- Tilt adjusts +/-55°
- Accommodates flat & curved monitors
- Clamp or grommet mount (both included)
- Creates a clean, sleek look with internal cable management system

AEG-12HA	Single arm	\$135
AEG-24HA	Dual arm	\$229

VESA Plate Adapter

- Adapter for VESA plate to suit MAC® monitors
- Aluminum construction
- Compatible with most 24"/27" iMac®, 24"/27" Apple® LED displays, 27" Apple Thunderbolt® displays before 2012

AE-MA		\$39
--------------	--	-------------

ACTIVERGO® SERIES

Phone/Tablet Stand

- Integrated ball joint, allows rotation, tilt and swivel in any direction
- Adjustable holder width of 5"-8.9"
- Manual Release for easy height adjustments
- Anti-skid EVA Pads prevent scratches and scuffs
- Solid & stable steel wheel base with soft protective cushions
- Fits screen sizes of 4.7" - 12.9"
- Weight capacity of 1kg (2.2lbs)
- Tilt range of +70° to -5°, swivel and screen rotation of +180° to -180°
- Dimensions are 29.6" x 7.1" x 13.9"-20.9"

PTS-01

\$49

Tablet Holders

- Home button accessible
- 90° rotation and 75° tilt adjustable
- Interior cable management channel
- Ideal for use in education, health-care, corporate, retail and point of sale environments
- iPads 1-4, Air, Air 2
- Height - 49.25" (125 cm)

- Anti-theft, lock and key, floor mounted enclosure/stand for iPad tablet
- Steel base with mounting holes for bolt down (fixed) application. (floor bolts not included)

PSF-05

\$209

- Portable, lock and key secured, free standing enclosure/stand for iPad tablet

- Width adjustment to fit a variety of CPUs and shapes
- Under-desk installation saves desk space and keeps your CPU dust-free
- Pole clamp attaches to circular tube firmly
- VESA compatible for mounting on a standard VESA plate
- Depth Range of 17-70mm (0.67"-2.8")
- Master carton - 12 pieces

CPU-TC **\$41**

Teflon Track Mount

- Smooth glide Teflon track
- Height and width adjustment
- Easy fingertip adjustment
- 360° swivel mount

CPU-T **\$329**

Single Strap

- Incorporates strap tension device for quick and secure installation
- Can accommodate CPU's up to 75 lbs and 64" in perimeter
- Single tool ratchet adjustment device to tighten and loosen strap
- Soft touch antislip pad protects CPU
- 360° swivel for easy access to connections
- CPU stores on a 17" track

CPU-S **\$229**

Convertible - Fixed Mount

- Mounts under desk with screws
- Adjusts from 5.5"-9.8" wide to 15"-19" tall
- Suits horizontal or tower CPU's
- Simple fingertip adjustment

CPU-E **\$119**

Economical Storage

- Fixed mount attaches to the underside of a desk or on a wall
- 360° swivel
- Knob adjustment from 3.5"-8" wide
- Height adjustment from 11.8"-20.9"
- Solid steel construction

CPU-GS **\$109**

ACTIVSTAND™

Height Adjustable Table Bases - Sit/Stand Workstations

Horizon is proud to introduce the ActivStand™ Height Adjustable Table bases! Having the flexibility to sit and stand during your work day has incredible benefits, including: the promotion of better circulation, better breathing, better digestion, and most importantly keeping your mind focused and off of troublesome back pain.

*Tabletops Not Included

GOYA™ SERIES

The GOYA™ series effortlessly transforms any surface into a personalized stand-up workstation whenever you want. Using an innovative counterbalance spring mechanism, you can easily reposition your monitor and keyboard, for ergonomic comfort.

Sit/Stand Workstation

- Primary work surface is 35.5" W x 15.75" D
- Compact footprint
- Gas assisted height adjustment
- Primary work surface can be extended 20" above the desk
- Large work surface accommodates two 24" monitors
- +/- 10° keyboard surface tilt
- Keyboard surface adjusts with primary work surface
- Primary work surface grommet
- Supports up to 35 lbs
- Weighs 40 lbs
- Ships fully assembled
- Available in Black (BLK) or White (WHT)

SSW02

\$828

Sit/Stand Workstation

- Primary work surface is 42" W x 16"D
- Accommodates up to two 27" monitors
- Gas assisted height adjustment, with simple paddle control
- Large primary work surface can be extended 20" above the desk
- +/- 10° keyboard surface tilt
- Keyboard surface adjusts with primary work surface
- Primary work surface comes with three standard grommet holes
- Supports up to 45 lbs
- Weighs 43 lbs
- Ships fully assembled
- Available in Black (BLK)

SSW42

\$999

Sit/Stand Workstation

- Designed to fit corner desk applications
- Easy to use – adjusts in seconds, with a gas assisted lift mechanism and activated with single handle
- Infinite lock height adjustment
- +/- 10° keyboard surface tilt
- Supports up to 35 lbs
- Spacious upper surface has room for all your equipment
- Separate Keyboard/mouse surface
- Units total weight is 42 lbs for ease of installation
- 3 standard grommets in primary work surface
- Can accommodate both clamp and grommet mount monitor arms
- Ships fully assembled
- Available in Black (BLK)

SSW42-C

\$1,099

Sit/Stand Workstation

- Two-tier design provides an upper display surface for monitors and a lower display surface for keyboard and mouse
- 22 height settings for optimal viewing height
- Eco-friendly particle board finished with solid construction
- Preset hole supports grommet installation
- Squeeze handle effortlessly adjusts height
- Embedded groove holds most tablets and phones
- Non-skid silicone pads
- Primary work surface is 31.5" x 24.2"
- Max load capacity is 15 kg
- Height range is 4.2"- 19.7", manual adjustment
- Available in Black (BLK)

GENERAL INFORMATION AND CONDITION OF SALE

Terms and Pricing:

2% 10/NET 30 DAYS FROM DATE OF SHIPMENT UNLESS OTHERWISE STATED. Cash discounts apply to cost of product only (not including tax and freight). F.O.B. Horizon Warehouse. Interest will be charged on overdue accounts at prevailing rates. Any products sold are the property of HORIZON and shall remain their personal property until fully paid for. Prices are suggested list only and are subject to change without notice. **GST/HST EXTRA.**

Colour:

Slight variations in colour may occur and must be accepted as normal.

Customer's Own Material (COM):

A sample of material must be sent to HORIZON for approval prior to acceptance of order. Acceptance of **COM** fabric signifies that such material can be applied to the products. **COM** is applied at customer's own risk and is excluded from HORIZON Warranty. Pricing will be as **Group II Fabric.**

COM yardage requirement is based on non-directional material widths of 54". Additional yardage may be required if width of less than 54" or if pattern requires matching. Fabric must be clearly labeled with customer's name, order number, model number, quantity of material and specific instructions. All **COM** orders must be shipped prepaid to Horizon's warehouse.

Customer Specified Material (CSM) as ordered by Horizon at customer's request is excluded from Horizon's warranty.

Returns/Cancellations:

No return of merchandise will be accepted by HORIZON without prior written consent. Cancellations and returns are subject to **20% minimum restocking charge.** All returns must be freight prepaid and subject to inspection upon receipt.

Shipping:

Choice of carrier will be HORIZON'S unless otherwise specified and available. In the event that shipment is prepaid and charged, a surcharge may be added to the actual freight for administration. F.O.B. point is Horizon's warehouse. HORIZON will make no end-user shipments, **all deliveries are dock to dock. All shipping weights and cubic measures are approximate.**

Horizon ECA offers 24-hour order confirmation on all orders. Most items will be shipped next day for orders received before 12:00 PM. Special order or custom products will have expected delivery dates quoted on order confirmation (limitations may apply). The choice of carrier will be HORIZON'S unless otherwise specified and available. In the event that freight charges are prepaid and charged to the dealer, an administration surcharge may be added to the actual freight charges. The FOB point for all shipments shall be Horizon's warehouse. Please note that orders combined with seating products will be grouped and shipped together unless otherwise requested.

Shortage and Damage:

All product is carefully packed and inspected before shipment. Seller's responsibility ceases when the carrier issues the receipt to the seller. Carrier assumes liability for all damages or shortages. **Inspect shipment on delivery.** If pieces are missing (short), cut or otherwise in bad condition, note full information on carrier's copy and your copy of Freight Bill and Delivery Receipt. **IMPORTANT!** When buyer gives the delivery carrier a clear receipt for a shipment, the carrier is relieved of further responsibility. **Open cartons immediately! If damages are found - don't destroy carton or container! Call carrier and report damage immediately and request an inspection. Confirm this request in writing.** Hold carton and unit for their inspection. This must be done within 48 hours of delivery. After inspection (or if carrier fails to inspect) a written claim must be filed within two weeks of delivery. Any claim for damage or shortage must be filed by you with the delivery carrier. Seller will not accept return of merchandise damaged in transit.

Note:

HORIZON reserves the right to make changes to design, specifications and material, as well as discontinue product at any time without prior notice.

All dimensions, weights, etc. are approximate as they will change when various mechanisms, options and or accessories are added.

HORIZON GENERAL WARRANTY INFORMATION

HORIZON offers the following warranties to the original owner of a Horizon product, when purchased from an authorized HORIZON dealer. These warranties protect the original purchaser against defects in materials and workmanship. The warranties do not cover any onsite labour or transportation costs incurred during the warranty period. HORIZON will repair and/or replace, solely at its discretion, components found to be defective, as the sole remedy for any covered defect. These warranties do not cover products that are abused, misused, altered or damaged during shipment or storage, as determined by HORIZON. Warranties do not apply to damage caused by normal wear and tear or any products being used for rental purposes.

HORIZON warranties do not apply to failures resulting from: negligence, abuse, misuse or accident, improper assembly, installation or maintenance, modification, attachments or unauthorized repairs, damage caused by carriers in transit or delivery. HORIZON makes no warranty that any of its products are suitable for any specific purpose and makes no other warranties, expressed or implied, other than set out here. In no event shall HORIZON be liable for any loss, direct or indirect, nor for any damages, whether incidental, consequential or exemplary. **NOTE:** Warranties set out below are based on normal commercial product use unless specifically stated otherwise. Normal use is defined as standard, single shift work day (8hrs/day - 40hrs/week) for users weighing up to 275 pounds.

Horizon Seating™ - 15 Year warranty

HORIZON extends a 15-year warranty on all non-moving metal components to the original owner of any Horizon Seating product, purchased from an authorized HORIZON dealer. HORIZON also offers the following additional warranties: Ten (10) years on all bases, gas cylinders and control mechanisms. All wooden, plastic and polyurethane components, as well as foam and upholstery materials, are warranted for two (2) years.

Fenwick™ Heavy Duty and 24 Hour Seating

HORIZON offers the same warranty coverage as outlined for the Horizon Seating line for Fenwick™ Heavy Duty and 24 Hour Seating products. The usage limitation is extended to include multi-shift and 24 hour applications as well as users weighing up to 400 pounds.

Activ™ Seating - 5 Year Warranty

HORIZON warrants the Activ™ seating products so designated to be free from defects in materials and workmanship for 5 years on bases, gas lifts, mechanisms and armrests. Foam, upholstery, casters, wooden and plastic components are warranted for 2 years.

Activ™ Seating - 2 Year Warranty

HORIZON warrants the Activ™ seating products so designated to be free from defects in materials and workmanship for 2 years on bases, gas lifts, mechanisms and armrests. Foam, upholstery, casters, wooden and plastic components are warranted for 1 year. Users up to 250 pounds.

Horizon ECA™ - Limited Lifetime Warranty

HORIZON warrants that their computer hardware support products so designated will be free from defects in materials and workmanship and will perform their intended function, under normal installation and use, for the lifetime of the product. Components of the support mechanisms which provide height adjustment or a reduction in closing forces shall be warranted for a period of 5 years.

Horizon ECA™ Products - 2 Year Warranty

HORIZON warrants that their computer hardware support products so designated will be free from defects in materials and workmanship for a period of 2 years for metal components, frames and attachments as well as height adjustable table motors, when installed and used as intended.

ActivErgo™ Products - 5 Year Warranty

HORIZON warrants that their computer hardware support products so designated will be free from defects in materials and workmanship for a period of 5 years for metal components, frames and attachments as well as height adjustable table motors, when installed and used as intended. Other electrical components and switches are warranted for 3 years.

ENVIRONMENTAL POLICY AND CORPORATE PHILOSOPHY

HORIZON FURNITURE is an environmentally conscious manufacturer. We are committed to preserving our environment and natural resources for future generations. HORIZON

endeavours to be pro-active in reducing waste, recycling, and using recycled materials in our manufacturing process wherever possible. HORIZON actively markets and promotes products which are not only manufactured using recycled materials but are in turn recyclable in whole or in part at the end of their useful life. Recyclable/re-useable cartons and containers as well as innovative packaging and shipping alternatives offer our suppliers and dealers the opportunity to help reduce our collective environmental “footprint”. Protecting the environment is important to the people at Horizon. Selecting products and making manufacturing process changes that support this ideal is vital to a better, cleaner future. Responsible manufacturing practices and earth-friendly initiatives demonstrate our commitment to the protection and conservation of the environment.

Quality and Durability

One of the most important ways to be environmentally responsible is to manufacture and market products that are built to last! In this age of disposability, manufacturers are building disposable seating and ergonomic accessory products having a very short life span with the sole focus on price point. This compromise of quality and durability not only serves to “cheat” the consumer in the long run, but also overloads our landfills in the process. Horizon’s constant focus on quality and durability of components and raw materials we use as well as the products we manufacture, serves to ensure that the product we deliver will have a longer life span. The modularity of HORIZON Seating also means that replacement parts and components are available should you choose to repair rather than replace your seating product.

Environmental Initiatives

Long before governments issued regulations protecting the environment and many years before the introduction of ISO 14000, the people at Horizon were demonstrating a profound respect for the environment through a series of practical and innovative activities. Our motive behind these activities was as straightforward then as it is today, it is the right thing to do.

Some of our environmental initiatives include:

- Eliminating the use of tropical woods listed in CITES, (Convention on International Trade in Endangered Species as well as maximizing the use of wood products from managed forests.
- All foam and polyurethane components are manufactured using Chlorofluorocarbon (CFC) free blowing agents.
- Bio-based foams are being introduced to replace fossil fuel (oil) based product on an on-going basis.
- Adhesives used in the manufacturing of HORIZON Seating are water based, having a reduced environmental impact and are designed to reduce or eliminate “off-gassing” in the finished product, contributing to a healthier work environment for the end user.
- Maximizing the use of powder coat paint finish technology on metal parts and components used in our products.

Foam and the Future

Horizon has formed partnerships with reliable source suppliers who have spent many years on award winning research, development and experimentation in resilient foam for use in seating products. The result is a change in the composition of resilient foam (cushions) to create an innovative new foam product. This new foam compound contains natural renewable resources in place of petrochemical based polyols and ultimately reduces greenhouse gas emissions. The new “Bio-renewable foam” is manufactured from natural seed-based oils such as soybean and others which are rapidly renewable and will not adversely affect the food chain. 15-20% of the end product is therefore Bio based.

Bio-renewable foam performs equally as well as traditional foam, is CFC free, has a low odor emission, superior UV stability, stable consistency and density and the raw material is renewable and plentiful. As an added benefit, the energy consumption to manufacture foam from Bio based materials is significantly less than what is required for traditional petrochemical based processes.

Textiles for Today and Tomorrow

Horizon has been on the leading edge of recycled and recyclable fabrics for many years now having a broad offering of budget and midrange upholstery fabrics. HORIZON was among the first office seating manufacturers to offer a mid range line-up of in stock, open line fabrics made from 100% recycled materials which are also 100% recyclable at the end of their life span. These fabrics offer an earth friendly alternative without compromising quality, durability, comfort, or beauty!

Horizon Furniture was among the first office product manufacturers to offer upholstery options manufactured using bamboo fibre. Long used as a construction material and as a source for food, bamboo is gaining recognition in the home and contract furnishings market due to its properties as a soft, durable, breathable fibre. There are over 1000 species of bamboo on the planet with some species capable of growing up to one metre per day. Its adaptability to different climates and precipitation levels, coupled with its 3-5 year harvesting period – significantly shorter than most softwoods- make it one of the world's most versatile, rapidly renewable resources.

Bamboo Fabrics

Why are bamboo fabrics a better choice over other textiles? Bamboo textiles can be much softer than the softest cotton. Bamboo fabrics have a natural sheen to the surface and they really do feel similar to silk textiles or cashmere fabrics.

Bamboo fiber based fabrics are naturally anti-microbial. Bamboo textiles contain an agent, called 'bamboo kunh', which naturally prevents bacteria from cultivating. Bamboo textile fibers have received much praise both in the fashion industry and in the mill houses as well. The fibers blend incredibly well with today's popular textiles like spandex, lycra and cotton. Bamboo not only feels cooler in the summer but it is significantly warmer in the winter. Bamboo is more comfortable and looks better but at the same helps regulate body temperature better than any cotton based textile.

Why are bamboo textiles better for the earth?

Bamboo fabrics are completely biodegradable. Bamboo textiles are made from of Moso bamboo, not the type of bamboo that giant pandas eat. Bamboo generates more oxygen than equivalent stands of trees - if we planted more bamboo more photosynthesis would help to cut the globally rising levels of carbon dioxide.

Bamboo trees can help us replenish the eco system!

Natural Bamboo has become one of the world's most prolific and fastest-growing plants, and is able to reach maturity in about four years, compared to the typical 25 to 70 years for commercial tree species in North America. Bamboo grows and thrives without fertilizers, pesticides or any chemical assistance.

Bamboo is nature's most sustainable resource. It is grown without pesticides or chemicals, is 100% biodegradable, and is naturally regenerative. Bamboo is actually a tropical grass with an extensive root system that sends out an average of four to six new shoots per year, naturally replenishing itself and growing to heights of 60 feet or more. Some bamboo species grow up to 3 feet per day and can be harvested every 3 to 5 years. Bamboo trees are planted and grown on family-owned farms that have been in agricultural use for generations. None of the fiber comes from tropical forests. Bamboo is the fastest growing woody plant in the world growing one third faster than the fastest tree. Some species grow up to a meter per day - you can almost watch it grow! The plant reaches its maximum height in 3 months and reaches maturity in around 3 years. Most softwood trees take 10-20 years to reach maturity. After each harvest, bamboo re-grows almost immediately so it is a completely sustainable resource.

Wood Components

Horizon endeavors only to use plywood components which are certified to have come from sustainable, managed forests. This means that the logs used are either from fully mature trees or cut from FSC – Forest Stewardship Council- certified plantations. Adhesives used in the production of curved plywood components are well within the EI standard for emissions, which is the lowest level available in the market today. Along with the majority of responsible manufacturers, Horizon has also eliminated the use of tropical woods listed in CITES, (Convention on International Trade in Endangered Species).

Waste Reduction Plan

Horizon Furniture has worked diligently for many years on waste reduction programs. We are constantly looking for new ways to reduce, reuse and recycle waste. Every year we adopt new processes that will divert more waste away from landfills and toward useful applications.

Our track record is impressive ... Horizon currently recycles close to 95% of the waste materials it generates each year. This means that less than 5% of the total waste generated by Horizon ends up in landfill, and we are committed to reducing that amount continually, but there's still work to be done ... In addition to waste diversion and reduction plans already in place, we are also developing new uses for our fabric scraps. We won't rest until we are recycling 100% of our waste. It is possible!

Packaging

All companies use shipping cartons and various kinds of packaging to protect their products during transport and storage ... and Horizon is no exception. At Horizon, however, we are committed to using only recycled cardboard for our shipping cartons. To be classified as "recycled," according to Environment Canada's Environmental Choice program, a product must contain at least 50 % recycled material.

Horizon Furniture. Made in Canada. Made for you.

Horizon's new 42,000 square foot, state of the art manufacturing facility in Kitchener, ON.
Horizon Furniture has achieved: ISO 9001 Quality Management System Certification
